IN THE CLAIMS

Claims 1 – 20 (Cancelled)

21. (Previously presented) A packaged supply of individual doses of a personal care product comprising:

- a) a tray;
- b) a plurality of substantially identical packets uniformly stacked in a non-staggered arrangement in the tray, each packet for holding a single dose of the personal care product and each packet having:

- i.) a first portion attached to the tray; and
- ii.) a second portion releasably attached to the first portion;
- c) a cover that is movably connected to the tray, the cover being movable between a closed position in which the stack of packets is enclosed within the tray and an open position in which second portion of the topmost packet on the stack is sufficiently exposed that the second portion can be gripped, allowing the second portion to be pulled away from the first portion, thereby removing that second portion with the product from the tray.

22. (Currently amended) A packaged supply of individual doses of a personal care product comprising:

- a) a tray;
- b) a plurality of substantially identical packets uniformly stacked in a non-staggered arrangement in the tray, each packet for holding a single dose of the personal care product and each packet having:

- i.) a first portion attached to the tray; and
- ii.) a second portion releasably attached to the first portion such that the attachment between the first and second portions is weaker than the attachment between the first portion and the tray; and

wherein the topmost packet of the stack is sufficiently exposed in the tray that the second portion can be gripped, allowing the second portion to be pulled away from the first portion, thereby removing that second portion with the product from the tray.

23. (Previously presented) The packaged supply of Claim 22, wherein each

packet is comprised of two flexible sheets that are partially laminated together so as to define a closed pocket between the sheets, in which pocket a dose of a personal care product is held.

Claims 24-30 (Cancelled).

31. (Previously presented) The packaged supply of Claim 23, wherein each packet sheet comprises a boundary zone between the first and second portions and is comprised of material that more easily tears in the direction of the boundary zone than in directions perpendicular thereto and comprises material selected from the group consisting of oriented film and striated film.

32. (Previously presented) The packaged supply of Claim 22, further comprising a dose of a personal care product wherein the personal care product comprises a water-soluble film that contains a pharmaceutically active substance.

33. (Please cancel without prejudice.)

34. (Currently amended) The packaged supply of Claim 22, wherein the tray further comprises:

- i) two ends;
  - ii) a fixed cover that covers one tray end and has a free edge that is intermediate the two ends of the tray
  - iii) a movable cover that is hingedly connected to the tray
- such that when the movable cover is in a closed position, an edge of the movable cover rests against the free edge of the fixed cover; and latch means for releasably holding the movable cover in the closed position.
